						Thursda	ay, 24 April 2025							
Room in PCC	Auditorium	Auditorium F	Room H1	Room H2	Room H3	Room A	Room B1	Room B2	Room J	Business Center I	Press Room I	Room B3	Press Room II	FOYER
08:00 - 09:00	BREAST SESSION 1- Obesity and breast reconstruction	HEAD & NECK SESSION 1 - Nasal Reconstruction	LYMPHEDEMA SESSION 1 - Ultrasound	LOWER EXTREMITY SESSION 1 - Spinoplasty	UPPER EXTREMITY SESSION 1 - Mangled upper extremity	ROBOTIC MICROSURGERY SESSION 1- Breast	VASCULARIZED BONE TRANSFER & NEW PERSPECTIVES SESSION 1	SARCOMA SESSION 1 Lower limb	GENDER AFFIRMING SURGERY SESSION 1-Phalloplasty	Free Paper 01 - H&N 1	Free Paper 02 Robotic 1	-Free paper 47 - Burns + VCA	IMSS Session	
	Moderators: Stefan Hofer & Jaume Masià	Moderators:Robert Walton & Claudio Angrigiani	Moderators: Akitatzu Hayashi & Seki Yukio	Moderators: Edward Reece & Scott Ferris	Moderators: Nicola Felici & Julian Pribaz	Moderators: Jung-Ju Huang & Richard Baynosa	Moderators: Gunther Germann & Heinz Burger	Moderators: Scott Levin & José María Lasso	Moderators: Sinikka Suominen & Christopher Salgado	Moderators: Carmen Vega & Susana Correa	Moderators: Alanna Rebecca	Moderators: Maria Pérez & Nicolas Dhooghe	Moderators: Alex Nistor & Georgios Pafitanis	
8:00	Breast Reconstruction with free flaps in the	Use of 3D technology in total nose reconstruction with prefabricated free flap - Uros Ahcan	Lymphedema Patients: The	Multidisciplinary approach to back reconstruction: the role of the plastic surgeon Luccie Wo	Use of Complex Biologic Interfaces for Reducing Neuroma Pain and Phantom Limb Pain After Amputation - Paul Cerdena	The daVinci assisted robotic DIEP for breast reconstruction: pearls and pitfalls - Steffen Eisenhardt	Pediatric musculoskeletal reconstruction with vascularized periosteal grafts Francisco Soldado	Balancing oncology and reconstructive planning in limb sarcoma surgery - Kathryn Steele	Urethra Evaluation Post urethroplasty in Phalloplasty Procedure - Indri Aulia	Cusaria conca		Tuolias Briogra	Empowering the Next Generation of Microsurgery Educators: New Innovative Course and New Textbook Tools- Yelena Akelina	
8:08	Autologous Breast Reconstruction in High Risk Populations- Wading through Morbid Obesity and Failed Reconstructions - Ben McIntyre	Advances in Microsurgical Reconstruction of the Nose - Robert L Walton Jr	LVA/VLNT using High- frequency USG - Hangyu Cha	Novel Vascularized Bone Grafts in Spinoplastic Reconstruction - Sebastian Winocour	A New Understanding of Flow- through Concept and Applications in Mangled Upper Extremity - Alexandru Georgescu	Expanding the horizons of robot-assisted breast surgery - Jin Sup Eom	Radio-ulnar reconstruction using a metatarso-phalangeal free flap transfer: a cadaveric and biomechanical study Amandine Ledoux	Managing complex defects after sarcoma resection in the thigh: strategies to restore form and function - Beniamino Brunetti	Composite phalloplasty - Tor Chiu				International Microsurgery Club: From 2016 to 2025- Tommmy Nai-Jen Chang	TRAINING LAB
8:16		Microsurgical reconstruction of complex nasal defects Raja Tiwari	Lymphovenous Bypass	Spine Reconstruction New Frontiers in Multidisciplinary Surgery - Edward Reece	Reconstruction of mangled hand using combined technique of microsurgey and tissue lengthening - Hiroyuki Gotani	Microsurgical breast reconstruction in Robot- assisted breast reconstruction - Jung-ju Huang	The Iliac crest free flap: from conventional to Chimeric - Massimo Maranzano	Thigh Sarcoma Reconstruction: review of 300 consecutive cases of thigh reconstruction - Eldon Mah	Recent Advancements in Masculinizing Genital surgery - Mark-bram Bouman				The Future of Microsurgery: Innovations, Breakthroughs, and Brazil's Rising Influence- Gustavo Bispo	Human vs robot competition (Foyer) Sewing with the
8:24	Obesity and microsurgical breast reconstruction - where are the limits? - Dean Trotter	Aesthetic Nasal Reconstruction with Free Flap - Osman Akdag	Application of Ultrasound in Lymphedema Microsurgery - Akitatsu Hayashi	Utilization of myocutaneous flaps alongside cadaveric bone grafting techniques for reconstructive surgery of spinal or limb defects Chieh-huei Huang	Mangled hand: Restoring Function - Fatih Kabakas	Robotic-assisted microsurgery to minimize invasiveness in breast reconstruction - Maximilian Kueckelhaus	Unusual reconstruction with vascularized bone - Marco Innocenti	Reconstruction employing vascularised bone grafts in limb sarcomas; An experience of 73 cases - Rashid Mamoon	Mastering Phalloplasty: Surgical Pearls for Optimal Outcomes - Jesús González Martínez				Training microsurgeons to train yourself - 20 years of microsurgical program at Pius Branzeu Center- Alexandru Nistor	Masters (Exhibition area)
8:32	Autologous breast reconstruction in the massive weight loss patient - Kristen Rezak	Cutting edge in Nasal reconstruction with forehead flap and free flaps - Jong- Woo Choi	Non-contrast lymphatic ultrasound expands the indications for LVA, making it easier and more effective - Hisako Hara	Spinoplastic Surgery State of the Art - Edward Reece	Management of Mangled hand injuries - Free Flaps for Hand Reconstruction, Biologic vs. bionic Reconstruction of Upper extremities, Upper extremity Targeted Muscle Reinnervation Helen Huichou	Robotic DIEPs for breast reconstruction- TAPP approach - Daniel Murariu	Microsurgical management of big bony defects - Milan Stevanovic	Experience with massive allograft and vascularized fibula flap for extremity long bone sarcoma reconstruction Koh Khai Luen	Pre-expanded ALT Phalloplasty - Dirk Schaefer				Microsurgery Training in Ireland: The RCSI experience- Shirley Potter	
8:40	Defying Gravity: Strategies for Successful Autologous Breast Reconstruction Following Nipple Sparing Mastectomy in Patients with Significant Ptosis - Christodoulos Kaoutzanis	PANEL DISCUSSION	Ultrahigh frequency ultrasound for assessing lymphedema - Paloma Malagón	Back to the Future: Advances in Spinoplastic Reconstruction - Sebastian Winocour	Mangled Upper Extremity - Michael Neumeister	Navigating the Current Landscape and Future Horizons of Robotic Plastic Surgery - Andrea Moreira	Orthoplastics services - Umraz Khan	Microsurgical reconstruction for sarcoma defects after isolated limb perfusion - Aadil Khan	Phalloplasty: strategies to reduce complications and optimize outcomes - Schechter Loren				Clinical microsurgery training in the 21st Century: What has changed and what has not? Juan Berner

16:00- 17:00	UPPER EXTREMITY SESSION 9 - Spasticity and tetraplegic	BREAST SESSION 14- DIEP alternatives	HEAD & NECK SESSION 9 - Innovations	LOWER EXTREMITY SESSION 10 - sensate flaps	FACIAL PALSY SESSION 5 - Innovation	IMC SESSION	LYMPHEDEMA SESSION 10	OBSTETRICAL - ADULT BRACHIAL PLEXUS SESSION - General	EDUCATION IN MICROSURGERY SESSION 5 - training	Free paper 19 - Breast 3	Free paper 20 - Lower Limb 3	Free paper 39 - Microvascul ar Imaging 1	LYMPHEDEMA SESSION 18 - Preventive	
	Moderators:- Julian Pribaz & Nicola Felici	Moderators: Gregory Evans & Angela Cheng	Moderators: Eric Santamaria & Giorgio De Santis	Moderators: Tomas Kermpny & Noopur Gangopadhyay	Moderators: Ruben Kannan & Tarek Amer		Moderators: Dimitrios Dionysiou & Kelvin Ramsey	Moderators: Alex Muset & Christine Radtke	Moderators: Milomir Ninkovic & Peter Neligan	Moderators: Marzia Salgarello & Ricardo Yanez Martinez	Moderators: Mario Scaglioni & Camilo Sepulveda	Moderators: Maria Del Río Escribano & Warren Rozen	Moderators: Maria Mani & Efterpi Demiri	
16:00	Restoring Sensation in the Penis in Paraplegic Patients Oskar Aszmann	What if the DIEP flap is not a feasible option? Alternative donor-sites for autologous breast reconstruction Marc Mureau	Bony reconstruction of the mandible and maxilla using Virtual Surgical Planning & home-made 3D printing. An evolution towards jaw-in-a day strategies Jan Jeroen Vranckx	Medial plantar flap in elderly - Asmat Din	Innovations in facial paralysis reconstruction - Eyal Gur	Special Lecture Moderators: Allen Wong Chihiro Mastsui Silvia Condrea Panelists: Jaume Masiá	Patient Selection and Personalized Treatment Approaches in Lymphedema Surgery - Anil Demiroz	Obstetric brachial plexus palsy: New concepts in primary surgery - Francisco Soldado	Setting-up a sustainable model for courses in open fracture care as an alternative for traditional surgical missions - Matthijs Botman				Immediate lymphatic reconstruction - Joani Christensen	
16:08	Hyperselective neurectomy for upper limb spasticity - Francesca Toia	Lessons Learned After a 100 Omental Flaps for Breast Reconstruction - Dung Nguyen	From patient-specific solution to artificial intelligence: evolution of jaw reconstruction - Richard Yuxiong Su	Sensory and pain outcomes of neurotized skin-grafted free gracilis muscle flaps for lower extremity reconstruction - Carlo Oranges	Vascularized nerve grafts and flaps in facial reanimation - Ruben Kannan	Zengtao Wang Zumax Company Final remarks and Awards	Individualized Lymphaticovenous Anastomosis Strategy with Intraoperative Evaluation of Denervated Lymphatic Anatomy - Akita Shinsuke	Retro esophageal transfer of contralateral C7 in Birth brachial plexus injury, a path breaking approach Jyoshid Balan	Innovative training models in Microsurgery - Insights from a developing country Maneesh Singhal				Five-Year Experience of Preventive Lymphatic Reconstruction - Jae-ho Chung	
16:16	Hyperselective neurectomy and Single- event multilevel surgery (SEMLS) concepty - İsmail Bülent Ozcelik	A personal experience with 110 lumbar flaps: an elegant alternative in autologous breast reconstruction Filip Stillaert	Computer-Assisted Jaw Reconstruction Using 3D- Printed Patient-Specific Surgical Plates Versus Conventional Surgical Plates: A Randomised Controlled Clinical Trial - Jingya Jane Pu	Sensory and Functional Recovery after Suprafascial Free Flap in Foot and Ankle Reconstruction - Nutthawut Akaranuchat	An algorithm for selection of the most appropriate method for combating facial paralysis in each individual - Catherine Vlastou		Functional comparison of constricted and non-constricted lymphatic vessels in supermicrosurgical lymphaticovenous anastomosis for cancer-related lower limb lymphedema: A retrospective cohort propensity-scorematched outcome analysis - Martin Knoz	Robotic exploration and nerve transfers for adult brachial plexus injuries Raja Tiwari	Practice makes perfect: Simulator training - Joan Lipa				Prophylactic Lymphovenous Bypass after Axillary and Inguinal Lymph Node Dissection for Melanoma - Ashleigh Francis	TRAINING LAB Human vs robot competition Sewing with the Masters
16:24	TMR After Amputation and Outcomes - Jason Ko	Current practice in autologous breast reconstruction - between belly, back and thighs. Have we gotten any better? - Assaf Zeltzer	Mixed reality combined with surgical navigation assisted in jaw reconstruction - Xin Peng	Optimizing Functional and Neural Outcomes after Microsurgical Reconstruction of Oncologic Extremity Resections - Margaret Roubaud	Early facial reanimation in the oncologic patient - Abraham Zavala		Multisurgeon Lymphovenous Bypass: Enhancing Surgical Efficiency and Outcomes in One Sitting - Mohamad Rachadian Ramadan	Clinical and Functional Outcome of Free Functional Muscle Transfer for Elbow Joint Reconstruction Based on Nerve Donor Source in Total Root Avulsion Adult Brachial Plexus Injury - Heri Suroto	New Models in Microsurgical Teaching and Testing - Warren Rozen				Immediate Lymphatic Reconstruction – The Boston Lymphatic Center Experience - Dhruv Singhal	
	Selective neurectomy for spasticity in the lower extremity: Indications, work-up, surgical technique and outcomes - Tim De Jong	Superioir gluteal artery perforator flap - Technical pearls Tae Chong	Augmented reality in facial bone microsurgical reconstruction: clinical experience - Giovanni Montealegre Gomez	Free extended medial plantar free flap - Tomas Kempny	Nerve transfers in facial palsy; is it better in one or two stages? - Kallirroi Tzafetta		Customised Lymphatic Reconstruction: personal experience - Damir Kosutic	Anterior interosseous nerve syndrome. Is it a compression neuropathy or neuralgic amyotrophy? - Jaekwang Kim	Hybrid learning in microvascular anastomosis: single center experience - Rani Septrina				ELVA efferent lymphatic venous anastomosis as preventive surgery for lower limb lymphedma - Rajendra S. Gujjalanavar	
16:40	PANEL DISCUSSION	Donor site selection in autologous breast reconstruction - Carrie Chu	Advantages of Virtual Surgical Planning in Head and Neck Reconstruction - Evan Matros	Sensory Filet Flap for Weightbearing Stump Resurfacing - Oskar Aszmann	Soft Skills in Facial Palsy Chieh-Han John Tzou		Methylene blue for functional lymphatic vessels in the performan of lymphatic venous anastomosis in primary lymphedema - Alejandro Zapata-Ospina	PANEL DISCUSSION	Lean microsurgery - Hinne Rakhorst				PANEL DISCUSSION

Saturday, 26 April 2025

Room in PCC	Auditorium	Auditorium F	Room H1	Room H2	Room H3	Room A	Room B1	Room B2	Room B3	Room J	Business Center I	Press Room I	Press Room II	Room K4	
09:00 - 10:00	HEAD & NECK SESSION 13- Face Transplant	BREAST SESSION 15- Innovation	LYMPHEDEMA SESSION 13 - Extremity Lymphedema	LOWER EXTREMITY SESSION 12 - Lower limb reconstruction	UPPER EXTREMITY SESSION 11 - Hand	EDUCATION IN MICROSURGERY SESSION 7 - Approaches to microsurgery	INNOVATION SESSION 1 - AI & Augmented reality	REGENERATIVE SURGERY SESSION	MISCELLANEA SESSION 7	HEAD & NECK SESSION 17 - Fibula Flap	Free paper 23 - Lymphedem a 3	Free paper 24 - Miscellane a	Free paper 41 - H&N 4	Free paper 46 - Lower Limb Orthoplast ic	
	Moderators: Samir Mardini	Moderators: Julie Park	Moderators: Dimitrios Dionysiou & Min-Jeong Cho	Moderators: Marco	Moderators:Bauback Safa & Oskar Aszmann	Moderators:Jaume Masia & Sinikka Suominen	Moderators: Peter Neligan & Richad Baynosa	Moderators: Roger Khouri & Tomoyuki Yano	Moderators: Youmao Zheng & Alexandru Georgescu	Moderators: Jean Francçois Honart Honart & Noopur Gangopadhyay	Moderators: Chihiro Matsui & Alexandru Nistor	Moderators: Ricardo Yanez Martinez - Hinne Rakhorst	Moderators: Francesca Toia & Edward Chang	Moderators: Irina Leoveanu	
9:00	Pionering facial transplantation - Laurent Lantieri	Use of 3D printed breast replica cast for optimising autologous breast reconstruction - Uros Ahcan	Hybrid surgical approach to extremity lymphedema treatment: algorithm and outcomes Michel Saint-Cyr	One size fits all? Alternative free flaps in lower limb trauma reconstruction - Juan Berner	Role of Free Vascularized Joint Transfers for Management of Finger and Wrist Arthritis - Yu Te Lin	Learning from mistakes - David Chang	The Use of Augmented Reality for Fibular Flap Perforator Identification - Yu-chung Shih	Advancements in chondrocyte 3- Dimensional embedded culture implications - Monica Yu Ying Chu	Do we need microsurgery in lipedema treatment? Vladimir Ivashkow	Microsurgical fibular flap transfer for mandibular reconstruction post aterriovenous malformation resection - Trung-truc Vu					
9:08	Current experience and future of facial transplantation - Patrick Lassus	Innovations in immediate DIEP breast reconstruction and simmetrization - Joao Correia Anacleto	Long-Term Outcomes of Combined Physiologic and Liposuction Treatment for Lymphedema Ketan Patel	Lower limb complex reconstruction: indications and critical issues - Nicola Felici	Advances in Pediatric Toe Transfers - Xiaofang Shen	Redefining free flap failure: a new classification for the 21st century - Omar Ahmed	Innovative Approach to Perineal Reconstruction in Pelvic Exenteration: Evaluating Functional Outcomes and Feasibility - Shaoqing Feng	The review of dedifferentiation mechanism of chondrocytes - Monica Yu Ying Chu	The long journey back to normality- microsurgery at the service of complex reconstructions - Eyal Gur	Versatility of the fibula flap with large skin paddle for head and neck reconstruction - Chung- Kan Tsao					TRAINING LAB (Foyer)
9:16	Innovative approaches to facial reconstruction: moving beyond facial transplantation - Julian Pribaz	Breast reconstruction advances: Everything old is new again - Michele Manahan		Orthoplastic approach to bone defect of the ankle and foot - Pierluigi Tos	Second Toe to Thumb Transfer for Total Thumb Reconstruction - Burak Yaşar	Approachability in microsurgery education: Ways to make microsurgery easy for all - Michele Manahan	Augmented Reality Technology in Soft Tissue Free Flaps - Susana Heredero	Next generation spatial resolution when engineering a skin flap - Jason Wong	Base camp to peak- Inception to evolution of a microsurgical centre of excellence-Amrita Hospital, Delhi NCR ,India - Mohit Sharma	Split fibulae flap : A new designed flap for free vascularized fibula transfer - Murat Topalan					Sewing with the Masters (Exhibition area)
9:24	Preventing and navigating rejection: clinic and research insights - Hatem Amer	Reclaiming the waste lands- fat grafting of radiated mastectomy skin prior to free flap transfer Ewa Komorowska-Timek	Quantifying Reduction in Compression Therapy After Staged Debulking and Lymph Node Transplant for Upper Extremity Lymphedema - Yuma Fuse	Orthoplastic Extremity Reconstruction - L. Scott Levin	One-year follow-up of toe to hand allotransplantation from mother to child Vladimir Zavarukhin	Keeping micro simple - Hinne Rakhorst	Can Al make a microsurgeon's life easier? - Ayush Kapila	Combining 3D printing for microsurgical planningand implants for reconstruction - Ravit Yanko	PROMs in reconstructive surgery: simple steps to help improve your clinical care using PROMs - Danny Young-Afat	Long-term outcome of TMJ reconstruction with free fibula flap - Xin Peng					
9:32	Donor selection in facial transplantation: is donation after cardiac death feasible? - Juan Pedro Barret	Image Interpretation: How MRA Affects Planning in Perforator Flap Breast Reconstruction - Joshua Levine	The effect of proximal venous stenosis on the result in lymphovenous anastomosis - Chih Hsun Lin	Lower extremity reconstruction after tumor resection - Kim Sang Wha	Hand defect coverage: our preferred flaps tailored to meet the differenrt requirements - Gloria Alsina	The importance of teamwork in microsurgery - Peter Neligan	Augmented reality and microsurgical breast reconstruction - Improving perforator mapping - Arash Momeni	A microsurgical support system with high- precision tactile technology - Masaki Yazawa	Biophysiologic Role of Free Flaps: Long-term Follow Ups - Jeong Tae Tim	Anchoring-Traction Technique: A New Approach to Reshaping Alveolar Ridge of Fibular Flap-Reconstructed Bone Defect - Zhi Keqian					
9:40	Current surgical techniques and innovative non-surgical solutions - Samir Mardini	PANEL DISCUSSION	Audit of management policy of lower limb lymphedema and successful implementation of remedial measures - Subramania lyer	Personalized and accurate microsurgical reconstruction of composite tissue defects in limbs - Juyu Tang	Management of stiff PIP joint with insufficient soft tissue - Ike Che Hsiung Lee	Debatable Academic & Industry Cao-Existence: What Went Wrong? - Ivan Ducic	PANEL DISCUSSION	Autologous bone marrow for wound healing relegation and regeneration - Ayyappan Thangavel	PANEL DISCUSSION	PANEL DISCUSSION					
9:48 10:00-	PANEL DISCUSSION		PANEL DISCUSSION	PANEL DISCUSSION	PANEL DISCUSSION	PANEL DISCUSSION		PANEL DISCUSSION			PANEL DISCUSSION	PANEL DISCUSSION	PANEL DISCUSSION	PANEL DISCUSSION

Room in PCC	Auditorium	Auditorium F	Room H1	Room H2	Room H3	Room A	Room B1	Room B2	Room B3	Room J	Business Center I	Press Room I	Press Room II	Room K4
11:30- 12:30	HEAD & NECK SESSION 12 - Jaw & Orbital	BREAST SESSION 18 - Optimization and Complexity	LYMPHEDEMA SESSION 14 - LNT	LOWER EXTREMITY SESSION 13- Amputation	EFSM Session	HUMANITARIAN SESSION	INNOVATION SESSION 2	MISCELLANEA SESSION 3 - microvascular anastomosis	MISCELLANEA SESSION 8	HEAD & NECK SESSION 18 - Functional and sensate reconstruction	Free Paper 25 - Lower Limb 7	Free Paper 26 - Upper extremity 3	Free Paper 42 - H&N 5	48 - H&N 7
	Moderators: Karen Wong & Julian Pribaz	Moderators: Stefan Hofer & Michel Saint- Cyr	Moderators : Ming Huei Cheng & David Chang	Moderators: Dirk Schaefer & Libor Streit	Moderators: Alexandru Georgescu & Sinikka Suominen	Moderators: Dung Nguyen & Cristina Garusi	Moderators: Scott Levin & Bauback Safa	Moderators: Susanna Kauhanen & Andrea Figus	Moderators: Nicolas Pereira & Juan Berner	Moderators: Carmen Vega & María Perez	Moderators: Camilo Sepúlveda & Zhegang Zou	Moderators: Macarena Vizcay & Geoofrey Hallock	Moderators: Ben Moodie - José M ^a Lasso	Moderators: Alessio Baccarani & Jean François Honart
11:30	Virtual surgical planning and CAD/CAM in mandibular reconstruction: the Newscastle experience - Omar Ahmed	Preoperative considerations in complications management of microsurgical breast reconstruction Wladyslaw Gawel	Algorithmic Approach to Donor Site Selection for Vascularized Lymph Node Transfers - Edward Chang	Complex lower extremity trauma: to amputate or not? - Zoe Dailiana	Plastic surgery innovations from the Czech Republic - Jakub Holoubek	My contribution to microsurgery offer in Kenia- Cristina Garusi	Artificial intelligence for combined osseointegration and TMR in bionic limb reconstruction - Gunther Felmerer	Primary interposition vein graft in free tissue transfer - Selva S Seetharaman	Vascular anatomy and clinic application of mini-kiss flaps for skin defect - Youmao Zheng	Functional muscle transfer in head and neck reconstruction - Alessio Baccarani				
11:38	FFF as the gold standard for total mandibular reconstruction: does it always beneficial? Parintosa Atmodiwirjo	Optimizing microsurgical breast reconstruction - David Mathes	Lymphoscintigraphic evaluation of surgical outcome of vascularized lymph node transfer for extremity lymphedema Kyong-je Woo	Severe of lower extremity defect, limb salvage or amputation? - Pujisriyani Prawoto	European Innovations in hand surgery - Pierluigi Tos	Creating surgical capacity in Vietnam and beyond - Dung Nguyen	Reconstruction after upper limb amputation: prosthetics and more - lan Barner - Rasmussen	Vessel grafts in microsurgical reconstruction - Amanda Silva	From the ladder to the reconstructive funnel - Raphael Sinna	Functional head and neck reconstruction - Esteban Ezequiel Bolea				
11:46	Optimising jaw reconstruction to achieve a smile in a day - Nicolas Dooghe	Complicated Microsurgical Breast Reconstruction - Dmitry Melnikov	Influence VLNT flap positioning on the response to BCRL treatment. Long term follow up - Eduardo Montag	Targeted Muscle Reinnervation and Regenerative Peripheral Nerve Interfaces: A New Gold Standard on Oncologic Amputee Reconstruction - Margaret Roubaud	Keystone flaps - AlexandruGeorgescu	Continuity and Training: Keys to the success of surgical missions - Carmen Higueras	Cyborg Reconstructions of the Upper Extremity: The Next Generation - Paul Cederna	A-V loops in free tissue transfers: technixcal details and clinical applications - Murat Topalan		Advanced Approaches to Functional Rehabilitation in Mandibular Reconstruction - Yue He				
11:54	The application of lower medial thigh perforator flap for head and neck reconstruction - Kuo Yur-Ren	Predicting adverse outcomes in microvascular breast reconstruction - Anne O'Neill	Combined breast and lymphedema reconstruction with a chimeric DIE-inguinal lymph node flap: aesthetic and functional consideration Efterpi Demiri	Amputation surgery revisited: a true reconstructive procedure - Marco Innocenti	European experience on robotic microsurgery - Alexandru Nistor	Role of reconstructive microsurgeon in modern war conflict: What we learn in Ukraine-Russian war Jakub Holoubek	The advancement of artificial intelligence in reconstructive surgery: Preliminary exploration of Al application in DIEP flap perforator localization - Shaoqing Feng		Vascularized bone transfer: algorithm for adjunct functional reconstruction - Christine Radtke	Bone tumor microsurgical repair and functional reconstruction - Jianwen Zhao				
12:02	Social Perception of Reconstruction following Orbital Exenteration - Mario Cherubino	Complex breast reconstruction - Venkat Ramakrishnan		Strategies for neuroma prevention in diabetic and vasculopathic amputees Grant Kleiber	Scandinavian contributions in microsurgery - Sinikka Suominen	Jaume Masià	Where are we in the advancement of microscope? (micro-robot and excoscope) - Hyun Ho Han			Restoration of lower lip sensation simultaneous with mandible reconstruction - Ahmet Hamdi Sakarya				
12:10	Orbital Reconstruction: An algorithmic approach Eamon Francis	Advancements in Breast Reconstruction: Optimizing Planning to Minimize Invasiveness - Federico Taraschi	PANEL DISCUSSION	Optimizing Results in Forequarter Amputation - Nieves Vanaclocha	PANEL DISCUSSION	PANEL DISCUSSION	Portable ultrasound - new stethoscope for microsurgeons - Hyung Hwa Jeong	PANEL DISCUSSION	PANEL DISCUSSION	PANEL DISCUSSION

13:30- 14:30	Lur	nch	WSRM BUSINESS MEETING - ONLY FOR WSRM MEMBERS						Lunch					

Saturday, 26 April 2025

Room in PCC	Auditorium	Auditorium F	Room H1	Room H2	Room H3	Room A	Room B1	Room B2	Room B3	Room J	Business Center I	Press Room	Press Room II	Room K4
14:30- 15:30	HEAD & NECK SESSION 11 - Scapula & Medial Femoral Condyle	BREAST SESSION 20- Partial breast reconstruction	LYMPHEDEMA SESSION 15 - Brain disease 2	LOWER EXTREMITY SESSION 14 - ALT et al.	UPPER LIMB SESSION 12 - Hand 2	WAR SESSION 1	VASCULARIZED COMPOSITE ALLOTRANSPLANT ATION SESSION 1	MISCELLANEA SESSION 4- TDAP	MISCELLANEA SESSION 10 - Perforators Tips & Tricks	HEAD & NECK SESSION 19 - Complex cases	Pree Paper	Free Paper 28 - Lower extremity 4	Free Paper 43 - Innovation	
	Moderators: Sydney Ch'ng & Milomir Ninkovic	Moderators: Moustapha Hamdi & Efterpi Demiri	Moderators:Nicole Lindenblatt & Youmao Zheng	Moderators: Tuula Lappalainen & Zhegang Zou	Moderators: Jason Ko & Linfeng Liu	Moderators: Marco Innocenti & Jakub Holoubek	Moderators: Anton Fries & David Mathes	Moderators: Claudio Angrigiani & Koenraad Van Landuyt	Moderators: Raphael Sinna & Cristina Garusi	Moderators: Xin Peng & Jose Ma Lasso Lasso	Moderators: Marc Mureau & Giovanni Montealegre	Moderators: Jorge Mario Rodríguez - Anton Fries	Moderators: Assaf Zeltzer & Gunther Felmerer	
14:30	Extended Scapular Flap for Anterior Neck Resurfacing - Claudio Angrigiani	Autologous partial oncologic breast reconstruction - Annie Wang	Lymphovenous Anastomosis for the External and Internal Types of Head and Neck Lymphedema: A case series and Preliminary results - Ying - Sheng Lin	Application of three source arteries and four design lines in the incision of the anterolateral flap of the lower leg - Jihui Ju	Treatment of MP joint in thumb and finger reconstruction Linfeng Liu	Staged strategy for the reconstruction of gunshot defects of covering fabrics (Experience of the war in Ukraine) - S.V. Tertishny	Nerve Regeneration at 9 years after Total Upper Arm Transplantation - Humberto Baeza	Optimizing Surgical Efficiency: Factors Influencing Operation Duration in TDAP Free- Flap - Yooseok Ha	Extremities as a donors for free vascularized tissue transfer. General and personal statistic. Main donor site morbidities Igor Golubev	Intraoral anastomosis for scarless microsurgical reconstruction of oral cavity defects - Akhil Garg	ï			
14:38	Chimeric/Double free ,Scapula bone with scapular/ parascpular plus LDMC flaps, for Complex HN reconstruction - 15 cases - Dushyant Jaiswal	Achieving an aesthetic outcome in breast reconstruction after minimally invasive resection - Allen Wong	Central Lymphatic Surgery Nicole Lindenblatt	Enhancing Limb Salvage with ALT Perforator Flap and Multi-Staged Induced Membrane Technique: A Protocol for Managing Complex Bone and Soft Tissue Defects - Sik Ryan Namgoong	Outcomes of forearm muscle flaps with tenolysis and neurolysis in severe scar contractures - Victor Melnikov	Delayed lower extremity soft tissue and bone reconstruction in war related injuries - Usama Abdelfattah	Upper Extremity Transplantation: Current Challenges and Future Prospects - Cheng-Hung Lin	How to harvest thoracodorsal artery perforator flap - Kim Sang Wha	The Keystone Island Perforator Flap: Its	Flap customization in head and neck reconstruction. Technical advances. Vicenç J. Gómez				
14:46	The Scapula/Parascapula Free flap in Mandibular and Maxillary Reconstruction- Pearls and Pitfalls in VSP, Elevation and Utilization Ben McIntyre	The Ultrasound Evolution of Perforator Flaps from Lateral Thoracic Area for partial and total breast reconstruction Giuseppe Visconti	LVA treatment for Alzheimer's disease: is its effect due to LVA alone or LVA plus - Xiaoju Zheng	The versatility of adipofascial alt flap for foot and leg reconstruction : over 100 cases experience - Camilo Sepulveda	A Comparison of Posterior Interosseus Nerve Autografts and Processed Nerve Allografts in the Reconstruction of Digital Nerve Gaps - Brian Rinker	Challenges in reconstructive microsurgery for war injuries AbdelRahman Marridi	Teamwork for Successful Hand Allotransplantation - People, Preparation, Practice - Ines Lin	A simple and safe modified intramuscular dissection technique for the thoracodorsal artery perforator flap - Kim Younhwan	Preparation and Selection of Pedicle in Various Perforator Flap Jeong Tae Kim	Flow-Through Double Free Flaps in Head and Neck Reconstruction - Ersin Gür				
14:54	Scapula Tip Free Flap: the most versatile flap in Head and Neck Reconstruction? - Andres Rodriguez	Oncoplastic Surgery in the USA - Gaby Garcia Nores	Drain the Brain - Alzheimer's disease treatment with lymphatic microsurgery - Dimitrios Dionysiou	Super-thin ALT flap based lower extremity reconstruction - Youngchul Suh	Novel Technique for salvage of Crushed Avascular Hand using dorsal foot venous Arch - Sandeep Bhogesha	Microsurgeons lessons FromThe Ukraine War- Observations, training, Proposed Solutions - Olaf Libermanis	Upper limb transplantation- Largest single centre experience in the world- Amrita Institute ,India - Mohit Sharma	Free tissue transfer in pediatric population, experience from a tertiary care centre in South India Jyoshid Balan	Intraoperative Identification of Perforator Vessel Spasm and Decreased Pulsation During Free Flap Harvest Using Video capillaroscopy - Chihiro Matsui	Navigating Complex Head and Neck Defects: Multidisciplinary Approaches to Reconstruction Success - Berrak Karatan				
15:02	Reconstruction of Alveolar Bone defects and Palatal Fistula with Medial Femoral Condyle Flap in Cleft Lip and Palate Patients Osman Akdag	Cheng	Enhancing lymphatic drainage of brain disease- Dung Nguyen	Simultaneous Multiple flaps for lower limb reconstruction: is it worth the risk? - Jorge Rodriguez		Reasonable options for bone defect reconstruction in war injuries - Martins Malzubris	Improvements in the immunologic management of VCA transplants - David Mathes	Microsurgery in pediatric patient: tips and recommendations - Juan Carlos Zambrano	Use of secondary perforator flaps for closure of free flap donor site- Georgia- Alexandra Spyropoulou	Secondary procedure for oral trismus after head and neck reconstruction - Yur-Ren Kuo				
15:10	PANEL DISCUSSION	Refinements in Lateral Thoracic Artery Perforator (LTAP) flaps in partial and total breast reconstruction - Stephen Mc Culley	PANEL DISCUSSION	FreeStyle Free Flap For Lower Limb - Tarek Elasyed Mohammed Eldahshoury	PANEL DISCUSSION	From Comfort to Conflict: Rewiring the Surgical Mindset in the Gaza War - Ahmed Mokhallalti	Hand allotransplant rejection after SARS-COV- 2 infection - Kuo Yur- Ren	PANEL DISCUSSION	PANEL DISCUSSION	PANEL DISCUSSION

WSRM Featured Speaker Session – Peter G. Cordeiro Scholar and WSRM Visiting Professor Updates

Peter G. Cordeiro Lecture: Kongrit Chaiyasate- 15:30 –15:45 Sydney Ch'ng- 15:45-16:00
Visiting Professor: David Chang - 16:00 – 16:15
Resurge: Dung Nguyen - 16:15 – 16:30

16:30-17:00 Coffee Break

15:30-16:30

						Satur	day, 26 April 2	025							
Room in PCC	Auditorium	Auditorium F	Room H1	Room H2	Room H3	Room A	Room B1	Room B2	Room B3	Room J	Business Center I	Press Room I	Press Room II	Room K4	
17:00- 18:00	HEAD & NECK SESSION 14 - Tongue Reconstruction	BREAST SESSION 21- Aesthetic Outcomes	LYMPHEDEMA SESSION 16- LIFT	LOWER EXTREMITY SESSION 15 - Foot reconstruction	UPPER LIMB SESSION 13 - Hand 3			MISCELLANEA SESSION 5 - Holistic		HEAD & NECK SESSION 20 - Skull and new perspectives	Free paper 29 - Supermicros urgery + Miscellanea	Free Paper 30 - Lower Limb 5	Free Paper 44 - Breast 5		
	Moderators: Samuel Mattine & Tuula Lappalaianen	Moderators: Marcela Sánchez & Angela Cheng	Moderators: David Chang & Yukio Seki	Moderators:- Jorge Rodriguez	Moderators: Julian Pribaz & Pierluigi Tos			Moderators: Jaume Masià & Peter Neligan		Moderators: Susana Heredero	Moderators: Stefano Gentileschi & Martin Knoz	Moderators: Andrea Guerrero - Anil Delmiroz	Moderators: Charles Malata & Allen Wong		
17:00	Comparison of tongue reconstruction with free muscle and perforator flaps Georgia- Alexandra Spyropoulou	Utilizing aesthetic techniques in autologous breast reconstruction - Rachell Anolik	The lymphosome concept: a step forward in functional vascularizaed lymph node transfer - Jaume Masià	Muscle vs Fasciocutaneous Perforator flaps for Lower Extremity salvage - Eric Chang	Adventitial Stripping for the Digital Arterial Occlusion in the Throwing Hand of Baseball Pitchers - Toru Sunagawa			Burnout management in daily practice of reconstructive surgeon - Dmitry Melnikov		120 free flaps for the reconstruction of the cranial base and vault: is there any limitation? - Jose Maria Lasso Vázquez					
17:08	Delayed Commissuroplasty Increases Interincisal Distance in Buccogingival Cancer Patients Treated with Free Flap Reconstruction of the Oral Commissure - Jamie Shao Hung	How to optimize the aesthetic diep flap breast reconstruction - Mihye Choi	Anatomical and Physiological Reconstruction: Importance of Lymph Axiality and LIFT - Takumi Yamamoto	Supermicrosurgical Foot & Ankle Reconstruction - Dirk Schaefer	Vascularized bone graft in the upper limb: how changed the game with dedicated osteosynthesis and 3D - Pierluigi Tos			Why not to be a one trick pony - Peter Neligan		Which skull base reconstruction is more appropriate for huge cranio-nasal defects: local flap or free flap? - Jong-won Hong					
17:16	Prevention of unnecessary reintubation and emergent tracheostomy after head and neck flap reconstruction - Jerry Tsung-Kai Lin	Comparative Analysis of Aesthetic Abdominoplasty vs. Simple Abdominal Closure in DIEP Flap Breast Reconstruction - Mario Cherubino	Lymphedema Treatment with Microvascular - Nonmicrosurgical Local Flaps - Dimitrios Dionysiou	Salvage of foot in patient with severe atherosclerotic peripheral vessel - Chih Hsun Lin	Flaps based on the first dorsal metatarsal artery for digit reconstruction - Luigi Troisi			Microsurgery as a Contact Sport - Melissa Poh		Oncoplastic surgery a new perspective on head and neck cancer reconstruction - Massimo Maranzano					
17: 24	Tongue reconstruction: algorithm approach free flaps for optimizing speech and swallow on defect size - Aleksandr Mordovskii	Optimizing Aesthetic Outcomes in Autologous Breast Reconstruction - Susana Correa	Experimental study on the field of lymphedema: Novel scaffold and lymphinterpositional flap transfer Jae-ho Chung	Combination of microsurgical technique, Illizarov and Masquelet technique for salvage of mangled foot and ankle - Zhegang Zhou	Difficult nonunions in the upper extremity - tipping the biological odds in your favor - Eric Wang			Perspectives and Lessons Learned from A Microsurgeon Spanning Military and Civilian Practices - Ian Valerio		Modern reconstruction after extensive facial trauma - Lee Pu					
17:32	Clinical Application of Anterolateral Thigh Free Flap in the Reconstruction of Oral and Maxillofacial Tissue Defects - Ling Gao	Optimizing Aesthetic Outcomes in Microsurgical Breast Reconstruction: Surgical Art and Artificial Intelligence - Andrea Gravvanis			What are the core microsurgical techniques for limb salvage in severe limb injuries? - Xin Wang			Psychology in plastic and reconstructive surgery - Garcia Nores Gabriela del Pilar							
17: 40		Application of Principles of Body Contouring To Breast Reconstruction Approaches And Techniques To Optimize Aesthetic Results - David Greenspun	PANEL DISCUSSION		Micro-dissected debulking and osteotomy procedures to correct severe macrodactyly deformity - Sun Wenhai			PANEL DISCUSSION		PANEL DISCUSSION					
17:48		PANEL DISCUSSION			PANEL DISCUSSION						PANEL DISCUSSION	PANEL DISCUSSION	PANEL DISCUSSION
